DESPERADO

DESPERADO 1

The Desperado is a hardtail cross-country bike that's easy on the eyes and the pocketbook. It may be priced at the lower end of the market, but thanks to the Optimum tube frame, it performs like a high priced thoroughbred. The frame's rigidity allows for unequalled resistance to lateral movement when pedalling and the steering column has been reinforced for extra strength. Whether you're racing or simply exploring the urban jungle, this multi-purpose bike is sure to satisfy.
