# DISTRICT

District 1, District 2

Designed for tweaking it out, this ultralight yet tough and progressive hardtail is guaranteed to get you where you want to go like no other. Blending different styles, whether riding at the dirt jumps, on streets, or in skate parks, the District is built to be stable and predictable. With its low centre of gravity for manoeuvrability and Optimum X2 frame for strength when gravity calls, this bike rises to the challenge. No fluff. Just true grit. Just the way we roll.
