FRANTIK

FRANTIK 1, FRANTIK 2, FRANTIK 3

Whether you're busting out and throwing it down for the gallery or stomping a sick air with ease in front of your smack-talking friends, this burly frame is designed for the Slopestyle world and for real life, where not all landings are butter-smooth. Constructed with reinforced Optimum X-2 tubing and a one point five standard compatible head tube, the frame also boasts a 150mm through axle freehub and 165mm of plush rear travel. It's what you need to get bigger tricked-out air. Period.
