REMIX SL

REMIX SL 3, REMIX SL 4, REMIX SL 5

The Remix SL is arguably Devinci's most robust and versatile model on the market. Lightweight (275g lighter than the Remix 2006), responsive, fast, and equipped with excellent suspension, it's a survivor made for long-distance endurance. Thanks to the new thru-axle pivots mounted on our trusty needle bearings, and our innovative suspension configuration, it eliminates pedal bobbing and offers rigidity like never before. This is a beast of a machine—a two-wheeled all-terrain vehicle that can tackle anything nature throws its way.
