HYBRID SL

MELBOURNE, SYDNEY, COPENHAGEN, AMSTERDAM, OSLO

From urban streets to bike paths, the completely redesigned 2007 hybrid is strong enough to take a serious beating on weekends and still provide a smooth ride to work. Optimum 2 tubes make this frame lighter and stronger than ever. And double bend stays add extra comfort on bumpy roads. The frame is designed to allow for disk brakes for amazing stopping power in traffic. Perfect for the urban rider who likes to bomb down hills on weekends.
