CAMELEON

CAMELEON 1, CAMELEON 2, CAMELEON 3, CAMELEON 4

The Cameleon is a versatile, hardtail bike that screams good value for money. It has everything one has come to expect of a Devinci, with Optimum tubes, reinforced head tube, and astounding strength to weight ratio, but at a remarkably low price. Tough, yet incredibly light, it dominates the rocks and roots on technical trails, withstanding years of punishment. Your friend for life.
