SADDLE	SELLE ITALIA X2 TRANS AM SPECIAL EDITION
SEATPOST	RACE FACE DEUS 27.2MM

MOONRACER SL

MOONRACER SL 2, MOONRACER SL 3, MOONRACER SL 4

This racing frame is the ultimate weapon of victory and will destroy the competition in any cross-country race. It has a rigid four-bar linkage suspension system, reinforced Optimum 2 aluminum tubes, thru-axle suspension pivots mounted on polymer bearings, shot-peened surfaces, and double-pass welds. This bike is tough, but at 2,190g, it's one of the lightest dual-suspension mountain frames around! For riders who mean business—the business of winning.
