HANDLEBAR	DAREDEVIL DH RISERBAR 31.8MM
GRIPS, TAPE	VELO LOCK-ON
SADDLE	DAREDEVIL FR
SEATPOST	PROMAX SP-226 31.6MM

OLLIE

OLLIE 1, OLLIE 2

This frame was named "Freeride Bike of the Year" by biking mags Twenty Six and Decline, and was ridden into the top-ten at the RedBull Rampage in 2004. This year the Ollie frame is back in full force with a design especially for extreme freeriding. Constructed with our legendary Optimum X tubing and with an active suspension, courtesy of Devinci's strikingly elegant 4-bar linkage design, this bike is set up for seemingly bottomless travel at both ends. The frame is compatible with both 24 inch and 26 inch wheels, is equipped with a one point five head tube, a 150mm through axle freehub, and precision needle-bearings throughout. Every day we receive comments from riders who rave about how this frame has helped improve their experience. Now it's your turn.
